

A study of the release of mercury vapor from different types of amalgam alloys. Berglund A. J Dent Res 72:939-946, 1993.

Mercury in saliva and feces after removal of amalgam fillings. Toxicology and Applied Pharmacology. Bjorkman L, et al. 144(1):156-162, 1997.

Effects of mercury on human polymorphonuclear leukocyte function. Contrino J, et al. Am J Pathol 132:1, 110-118, July 1988.

Speciation of mercury excreted in feces from individuals with amalgam fillings. Engqvist A, et al. Arch Environ Health 53(3):205-213, 1998.

Mercury vapor in the oral cavity in relation to the number of amalgam fillings. Lichtenberg H. Journal of Orthomolecular Medicine 11:2, 87-94, 1996.

Mercury exposure from silver tooth fillings: Lorscheider, et al. Emerging evidence questions a paradigm. FASEB J 9:504-508, 1995.

Intraoral galvanic corrosion. Meyer RD, et al. Prosthet Dent 69(2):142-143, 1993.

Long term corrosion studies of amalgams and casting alloys in contact. Moberg LE. Acta Odontol Scand 43:163-177, 1985.

Electric current around dental metals as a factor producing allergic metal ions in the oral cavity. Nogi N. Nippon Hifuka Gakkai Zasshi 99(12):1243-1254, 1989.

Localized galvanic shock after insertion of amalgam restoration. Owens BM, et al. Compenium 14(10):1302, 1304, 1306-1307, 1993.

Polymorphonuclear phagocytosis and killing workers exposed to inorganic mercury. Perlingeiro RC, et al. Int J Immunopharmacol 16:12,1011-1017, 1994.

Mercury poisoning from dental amalgam. Pleva J. J of Orthomol Med 4(3):141-148, 1989.

The effects of dental amalgam on Mercury levels in expired air. Savare CW, et al. J Dent Res 60(9):1668-1671, 1981.

Human exposure to Hg and Ag released from dental amalgam restorations. Skare I, et al. Archives of Environmental Health 49(5):384-394, 1994.

Influence of amalgam fillings on urinary mercury excretion. Soleo L, et al. G Ital Med Lav Ergon 20(2):75-78, 1998.

Studies of mercury vapor in the oral cavity in relation to the number of amalgam fillings. Toomvali C. IFM-Kemi-EX 150, 1988.

Altered porphyrin metabolism as a biomarker of mercury exposure and toxicity. Woods JS. J Physiol Pharmacol 74 (2): 210-215, 1996.
